

Technology Evolution Video

(Trio Assignment)

Course: SSPG2113 Creativity and Innovation

Group Size: Trio (3 members per group)

Weightage: 30 Marks (15% of Final Grade)

Submission Deadline: 11:00 PM on 5th December 2025

Submission Method: Submit the video file (MP4) and the Script/Report (PDF) to m_azri@utmspace.edu.my EB1 or ahmadrusydi@utmspace.edu.my EB2.

1. Assignment Goal and Scope

The objective of this assignment is to create a 12 to 16 minute video that critically analyses technology evolutions. Your video must move beyond a simple timeline to evaluate the **positive impacts** (economic growth/ efficiency/ other) and **negative externalities** (pollution/ ethical issues/ other) of the technology's evolution, and show how subsequent innovations attempt to solve those problems.

Deliverables

1. **Video File (MP4/MOV/etc.):**

- Minimum resolution 720p.
- Duration: 12 minutes minimum, 16 minutes maximum.

2. **Script/Report (PDF):**

- Full, annotated video script.
- A **400-word introduction** justifying the chosen technology and outlining how its four phases align with the required innovation and impact concepts.

Mandatory Narrator Requirement

The primary voice-over or on-screen narrator for the video **must be a person visibly or audibly over 40 years old (your parent / relative)**. This is to provide a sense of experience and historical context to the evolution story.

2. Technology Selection

Your trio must select **ONE** technology whose development has resulted in both significant economic benefits and clear negative side effects. The video must cover **FOUR distinct phases** of its evolution and impact.

Example:

Technology: Digital Data Storage

Evolution: Floppy Disc **TO** Compact Disc **TO** Flash Drive **TO** Cloud Storage

Impacts: Economic Productivity, Performance Improvement vs. Security and Privacy Concerns, Dependence on Internet Connectivity

Conclusion: Support - Better and easy to access

3. Mandatory Video Structure (Four Phases of Evolution and Impact)

The video must be structured around the following four phases, with strong visual support and clear academic analysis:

Video Segment	Duration (Approx.)	Key Content Requirements
Introduction	1:00 min	When It Was Invented? What Is the Purpose? Famous Brands
Phase 1 (1990s)	2:00 min	Performance, Dimensions, Costs, Availability, Experience (Good/Bad)
Phase 2 (2000s)	2:00 min	
Phase 3: (2010s)	2:00 min	
Phase 4: (2020s)	2:00 min	
Impacts	2:00 min	Positive Impacts and Negative Externalities
Conclusion	1:00 min	“Support or Reject” Technology Evolution

Referencing

All claims, data, and visuals must be properly sourced. Use brief on-screen text citations for visuals, and include a full reference list (APA style) in the accompanying PDF report.
