Faculty:	Faculty of Computing	Page:	1 of 3
Program name:	Professional Skills Certificate		
Course code:	GLRT 0010	Academic Session/Semester:	2024/2025-01
Course name:	Data Analytics for Organization	Pre/co requisite (course name and code, if applicable):	
Credit hours:	16		

Course synopsis	This course introduces students to the fundamentals of data analytics and its application. The course also exposes students to the concept of information visualization and managing data. Besides, the students will learn how to apply suitable software such as Tableau in data visualisation and gain some insights. At the end of the course student should be able to demonstrate their skills in designing, developing and delivering data visualizations using Tableau to assist organisations in decision making process.

Details on Innovative T&L practices:

No.	Type	Implementation
1.	Online learning	Conducted through online learning
2.	Project-based learning	Conducted through design assignments. Students in a group of 3 are given one projects that require analytics solutions involved the designing of dashboard using Tableau software.

Course Schedule:

Session 1	Fundamental Concepts of Data Analytics
Session 2	Applications of Data Analytics with Tableau – Part 1
Session 3	Applications of Data Analytics with Tableau – Part 2
Session 4	Hands-On Project (Dashboard Development)
Session 5	Competency Test

Transferable skills (generic skills learned in course of study which can be useful and utilised in other settings):

Team working
Written communication
